

MIHO HAZAMA

QUOTE

"...quickly became a talked-about writer and arranger."

- The New York Times

"...classy large ensemble that keeps the listener guessing and enchanted...something is always lurking and ready to pounce; then skitter away again."

- Jazz Times

"At a time when orchestral jazz is either ultra- polished, exceedingly high brow, or a pedestrian pandering to sentimental tastes of yore, Hazama's boldly organic and singularly exciting collective is a breath of fresh air. Her uncanny ability to remain intellectually stimulating and vibrantly spirited is what makes her work singularly innovative."
